

#1

Reproduction

Pollinators  
Animals  
Insects  
Wind  
Seeds  
Native Plants

#2

Nutrients

Glucose  
Minerals: calcium, sulfur, magnesium  
Nitrogen  
Phosphorus  
Potassium  
Fertilizer  
Compost  
Water

#3

Photosynthesis

Chlorophyll  
Sunlight  
CO<sub>2</sub>  
O<sub>2</sub>  
Leaves  
Water  
Temperature

#4

Environment

Habitat  
Decomposers  
Climate  
Space  
Roots  
Adaptations  
Fungi  
Bacteria
